## **II. INTRODUCTION**

### **AN INTRODUCTION TO EXCHANGE TRADED FUND (ETF) and INDEX FUNDS**

Exchange-traded funds are a relatively recent innovation to the investment company concepts, with the first ETF introduced in 1993 in the USA. However, ETFs – number of ETFs and assets under management of ETFs have grown dramatically in the last one and a half decades.

ETFs are registered investment companies, most of which seek to mirror the return of a particular market index, such as the S&P 500. Investopedia describes ETF as a security that tracks an index, a commodity or a basket of assets like an index fund, but trades like a stock on an exchange, thus experiencing price changes throughout the day as it is bought and sold. An investor, by owning an ETF gets the diversification of an index fund as well as the ability to sell short, buy on margin and purchase as little as one share. The ETFs can be bought and sold through stock market brokers on payment of stock market related brokerages.

Although most ETFs are registered as open-end funds, there are some key difference between ETFs and other open -end funds such as mutual funds.

One difference is how retail investors buy and sell shares. A retail investor in a mutual fund typically purchases or redeems shares directly with the fund. By contrast, retail shareholders in an ETF do not conduct transactions directly with the ETF but instead buy or sell ETF shares on a stock exchange, just as they would sell or buy the shares of a publicly traded company. ETF shares originally enter the market through an institutional investor, known as a creation unit holder. These investors deposit with the ETF sponsor a specified basket of securities. In return for this basket of securities, the ETF issues to the creation unit holder as specified number of fund shares, which can be sold to the public through a stock exchange. A creation unit holder can liquidate its position by returning a fixed number of ETF shares to the ETF; in return, the creation unit holder receives the basket of securities from the ETF. A retail investor in an ETF could liquidate their position by selling their ETF shares on a stock exchange.

Another feature that distinguishes ETFs from open-end funds is pricing. ETF shares may trade above or below the underlying value of the securities in the fund. Unlike a mutual fund, whose price per share is based on the fund's net asset value (NAV), an ETF's share price is influenced by the forces of supply and demand. For example, when investors demand increase, the ETF share price rises. However, ETFs are structured so that large differences between their share price and the value of the underlying basket of securities do not exist for long period of time. Creation unit holders counteract the impact of supply and demand for ETF share by buying and selling ETF shares in the market, and if necessary, by creating or redeeming creation units with the fund. In doing so, creation unit holders help keep the market price of an ETF's share close to the underlying value of its securities.

### **INDEX FUND**

An index is a group of stocks that an Index Service Provider selects as a representative of a market, market segment or specific industry sector. The Index Service Provider calculates, maintains and disseminates the index. Most of the indices calculated are based on market capitalization (price x outstanding equity capital) of each stock and the weightage of each stock in the index is determined based on its market capitalisation. An index fund invests in securities of the index in the same weightage.

The advantages of investing in an Index Fund are:

1. **Diversification:** Since Index Schemes replicate to a large extent the market index, they provide diversification across various sectors/ segments/Scripts.
2. **Low costs:** Index Schemes are passively managed schemes, as a result of which costs such as those relating to management fees, trade execution, research etc. are generally kept relatively low.
3. **Transparency:** As indices are pre-defined, investors know the securities and proportion in which their money will be invested.
4. **Arbitrage:** These schemes provide low impact cost arbitrage opportunities between cash and derivatives market.
5. **Operational simplicity:** The ETF units are traded like stock on the stock exchange due to which investors who are familiar with stock market trading can take the benefits of investing in an index without the complications involved in derivative trading.

Kotak PSU Bank ETF is an exchange traded index fund scheme that invests in securities of a “Banking Index” in the same weightage as the underlying index.

Kotak PSU Bank ETF aims to invest in stocks included Nifty PSU Bank Index

#### **A. Risk Factors**

##### **Standard Risk Factors:**

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Kotak PSU Bank ETF is only the name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs.2,50,000 made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

##### **Scheme Specific Risk Factors**

The Scheme is subject to the principal risks described below. Some or all of these risks may adversely affect Scheme’s NAV trading price, yield, total return and/or its ability to meet its objectives.

- The NAV of the units is closely related to the value of stocks that form a part of the Nifty PSU Bank Index. The value of this will react to stock market movements and will result in positive or negative changes in the NAV of units under the scheme. There could also be

movements in the schemes NAV due to changes in interest rates, macro economic and political developments and over longer periods during market downturns.

- **Liquidity Risk:** Trading in Kotak PSU Bank ETF may be halted due to market conditions or for reasons that in the view of the Exchange Authorities or SEBI, trading in Kotak PSU Bank ETF is not advisable. There could also be trading halts caused by extraordinary market volatility and pursuant to NSE/BSE and SEBI circuit filter rules. There can be no assurance that the requirements of the exchange, necessary to maintain the listing of the Kotak PSU Bank ETF will continue to be met or will remain unchanged.
- The concept of exchange-traded funds is relatively new to Indian capital markets. Trading in Kotak PSU Bank ETF could therefore be restricted due to which market price may or may not reflect the true NAV of Kotak PSU Bank ETF at any point of time. Also there can be no assurance that an active secondary market will develop or be maintained for the Scheme units.
- **Regulatory Risk:** Any changes in trading regulations by the stock exchange (s) or SEBI may affect the ability of Authorised Participant to arbitrage resulting into wider premium/ discount to NAV.
- **Sectoral Risk:** The banking sector in general could underperform returns from the securities included in the index or other asset classes.
- **Concentration risk:** The scheme will invest in stocks included in the Nifty PSU Banking index; the number of stocks in the index is limited i.e., about 12 stocks (at present). Therefore the scheme is exposed to high level of concentration risk.
- **Passive Investments:** As the scheme proposes to invest not less than 90% of the net assets in the securities of the benchmark Index, the Scheme is a passively managed scheme and provides exposure to the benchmark and tracking its performance and yield as closely as possible. The Schemes performance may be affected by a general price decline in the stock markets. The Scheme invests in the stocks comprising the index regardless of their investment merit. The Mutual Fund does not attempt to take defensive positions in declining markets.
- The performance of the Nifty PSU Bank Index will have a direct bearing on the performance of the scheme. Hence any composition change in terms of weightage or stocks selection will have an impact on the scheme.
- Tracking error may have an impact on the performance of the scheme. However KMAMC will endeavour to keep the tracking error as low as possible.
- Investors may note that even though this is an open-ended scheme, they will have to buy or sell units of the scheme on the stock exchanges where these units are listed for liquidity at the market price, subject to the rules and regulations of the exchange. Buying and selling units on stock exchange requires the investor to engage the services of a broker and are subject to payment of margins as required by the stock exchange/broker, payment of brokerage, securities transactions tax and such other costs.
- The market price of ETF units, like any other listed security, is largely dependent on two factors, viz., (1) the intrinsic value of the unit (or NAV), and (2) demand and supply of units in the market. Sizeable demand or supply of the units in Exchange may lead to market price of the units to quote at premium or discount to NAV. However since the Authorised Participants and Large Investors can transact with the AMC for units beyond the creation unit size there should not be a significant variance from the NAV. Hence the price of ETF is less likely to hold significant variance (large premium or discount) from the latest declared NAV all the time.
- The units will be issued only in demat form through depositories. The records of the depository are final with respect to the number of units available to the credit of unit holder. Settlements of trades, repurchase of units by the mutual fund depend up on the confirmations to be received from depository (ies) on which the mutual fund has no control.

**Risks associated with Capital Markets or Equity Markets (i.e. Markets in which Equity Shares or Equity oriented instruments are issued and traded)**

• **Price fluctuations and Volatility:**

Mutual Funds, like securities investments, are subject to market and other risks and there can be neither a guarantee against loss resulting from an investment in the Scheme nor any assurance that the objective of the Scheme will be achieved. The NAV of the Units issued under the Scheme can go up or down because of various factors that affect the capital market in general, such as, but not limited to, changes in interest rates, government policy and volatility in the capital markets. Pressure on the exchange rate of the Rupee may also affect security prices.

• **Concentration / Sector Risk:**

When a Mutual Fund Scheme, by mandate, restricts its investments only to a particular sector; there arises a risk called concentration risk. If the sector, for any reason, fails to perform, the portfolio value will plummet and the Investment Manager will not be able to diversify the investment in any other sector.

• **Liquidity Risks:**

Liquidity in Equity investments may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by KMMF for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information.

**Risks associated with Debt / Money Markets (i.e. Markets in which Interest bearing Securities or Discounted Instruments are traded)**

Kotak PSU Bank ETF invests not less than 90% its corpus in the securities representing Nifty PSU Bank Index. As this scheme endeavors to earn returns that closely correspond to the total returns represented by Nifty PSU Bank Index, the scheme will have insignificant cash or debt/ market investments. Therefore, the scheme is not significantly susceptible to risks associated with debt/money markets.

**B. Requirement of Minimum Investors in the Scheme**

The requirement of minimum number of investors in the scheme is not applicable to Kotak PSU Bank ETF.

**C. Special Considerations**

- Prospective investors should review/study SAI along with SID carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscriptions, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their

subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of units within their jurisdiction/nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift units are subject, and also to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding units before making an application for units.

- Neither this SID and SAI, nor the units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration and accordingly, any person who gets possession of this SID is required to inform themselves about, and to observe, any such restrictions. It is the responsibility of any persons in possession of this SID and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/NSE/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.
- Kotak Mahindra Mutual Fund/AMC has not authorised any person to give any information or make any representations, either oral or written, not stated in this SID in connection with issue of units under the Schemes. Prospective investors are advised not to rely upon any information or representations not incorporated in the SAI and SID as the same have not been authorised by the Fund or the AMC. Any purchase or redemption made by any person on the basis of statements or representations which are not contained in this SID or which are not consistent with the information contained herein shall be solely at the risk of the investor. The investor is requested to check the credentials of the individual, firm or other entity he/she is entrusting his/her application form and payment to, for any transaction with the Fund. The Fund shall not be responsible for any acts done by the intermediaries representing or purportedly representing such investor.
- If the units are held by any person in breach of the Regulations, law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations, the Fund may mandatorily redeem all the units of any Unit holder where the units are held by a Unit holder in breach of the same. The Trustee may further mandatorily redeem units of any Unit holder in the event it is found that the Unit holder has submitted information either in the application or otherwise that is false, misleading or incomplete.
- If a Unit holder makes a redemption request immediately after purchase of units, the Fund shall have a right to withhold the redemption request till sufficient time has elapsed to ensure that the amount remitted by the Unit holder (for purchase of units) is realized and the proceeds have been credited to the Scheme's Account. However, this is only applicable if the value of redemption is such that some or all of the freshly purchased units may have to be redeemed to effect the full redemption.
- In terms of the Prevention of Money Laundering Act, 2002 ("PMLA") the rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML) Laws, all intermediaries, including mutual funds, are required to formulate and implement a client identification programme, and to verify and maintain the record of identity and address(es) of investors.
- If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report any such suspicious transactions to competent authorities under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI, furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI without obtaining the prior approval of the investor/Unit holder/any other person.

## Type of Investors:

The following three types of investors may subscribe to the units of the scheme:

- **Authorised Participants (AP):** AP is an entity engaged by AMC to undertake the responsibility of a market maker and ensure liquidity in the stock market. The role of AP will endeavour to assure liquidity for Kotak PSU Bank ETF units in the stock exchanges where the units are listed.
- **Large Investors (LI):** LI may buy and redeem units in creation unit size directly from the Fund directly on any business day at applicable NAV price and applicable entry load plus transaction charges, as and when permitted by the AMC.
- **Other Investors:** Investors other than AP and LI may buy or sell Kotak PSU Bank ETF units from the stock market only, on an ongoing basis.

### 1. Requirement of Demat account for investing in the scheme

The applicant under the Scheme will be required to have a beneficiary account with a Depository Participant of NSDL/CDSL and will be required to indicate in the application the Depository Participants (DP's) name, DP ID Number and the beneficiary account number of the applicant.

### 2. Procedure for Purchase/Redemption of Units directly from the Fund:

Only Authorised Participants can purchase or redeem unit directly from the Fund as per the procedure given below:

#### a. Creation/Redemption of units in Creation Unit Size by Exchanging Portfolio Deposit

The Fund creates / redeems the scheme units in large size known as "Creation Unit". The value of the "Creation Unit" is 10000 units of the Scheme or in multiple thereof called as the "Portfolio Deposit" and a "Cash Component" which will be exchanged for corresponding number of units. The Portfolio Deposit and Cash Component may change from time to time and will be announced by Fund on its website. Portfolio deposit shall be made into a pre-designated depository account.

#### b. Procedure for Creating Scheme's units in Creation Unit Size

AP may deposit requisite basket of securities comprising Nifty PSU Bank Index constituting the Portfolio Deposit and Cash component. The requisite securities constituting the Portfolio Deposit have to be transferred to the designated depository account of the scheme while the Cash Component has to be paid to the AMC by way of a cheque or pay order or demand draft. The AMC will have the corresponding number of units credited to the depository account of the AP.

The Portfolio Deposit and Cash Component for the Scheme may change from time to time due to change in NAV.

**\* Creation unit**

Each creation unit consists of 10,000 units of Kotak PSU Bank ETF.

Each unit of Kotak PSU Bank ETF will be approximately equal to 1/10<sup>th</sup> of the value of the Nifty PSU Bank Index.

**c. Procedure for Redeeming Scheme's units in Creation Unit Size**

AP may submit Redemption request transaction form prescribed by the AMC enclosed with redemption request slip used in the depository system duly acknowledged by the depository participant with which AP has a depository account.

The Portfolio Deposit and Cash Component for the Scheme may change from time to time due to change in NAV.

**d. Redemption method:**

- Unitholder (large investor or authorized participant) may submit to any of the offices of AMC Redemption request Form enclosed with a copy of redemption request duly acknowledged by the depository participant.
- The depository participant will process the request and forward the same to Registrar to the Scheme in the normal course.
- The time taken for confirmation of repurchase of units is dependent upon the timelines and procedures of depositories.

- Redemption proceeds in the form of Portfolio of securities will be transferred to the demat account of the unit holder within three days of confirmation with the depository records.

#### e. **Buying /Selling through the Stock Exchange**

Buying / Selling units on the stock exchange is just like buying / selling any other normal listed securities. If an investor has bought units, an investor has to pay the purchase amount to the broker / sub-broker such that the amount paid is realised before the funds pay-in day of the settlement cycle on the exchange. If an investor has sold units, an investor has to deliver the units to the broker/sub-broker before the securities pay-in day of the settlement cycle on the exchange. The units (in case of units bought) and the funds (in the case of units sold) are paid out to the broker on the payout day of the settlement cycle on the exchange. The trading member would pay the money or deliver the units to the investor in accordance with time prescribed by the stock exchange regulations.

If an investor has bought units, he should give standing instructions for ‘Delivery-In’ to his/her DP for accepting units in his/her beneficiary account. An investor should give the details of his/her beneficiary account and the DP-ID of his/her DP to his/her trading member. The trading member will transfer the units directly to his/her beneficiary account on receipt of the same from exchange’s clearing corporation.

An investor who has sold units should instruct his/her Depository Participant (DP) to give ‘Delivery Out’ instructions to transfer the units from his/her trading member through whom he/she have sold the units. The details of the pool A/c of his/her trading member to which the units are to be transferred, unit quantity etc. should be mentioned in the delivery out instructions given by him/her to the DP. The instructions should be given well before the prescribed securities pay-in day. SEBI has advised that the delivery out instructions should be given atleast 24 hours prior to the cut off time for the prescribed securities pay in to avoid any rejection of instructions due to data entry errors, network problems, etc.

### III. INFORMATION ABOUT THE SCHEME

#### Kotak PSU Bank ETF

##### A. Type of the scheme

An open ended exchange traded fund

##### B. What is the investment objective of the scheme?

The investment objective of the scheme is to provide returns that closely correspond to the total returns of Nifty PSU Bank Index, subject to tracking errors.

**However, there is no assurance that the investment objective of the Scheme will be achieved.**

##### Tracking Error

Tracking error means the extent to which the NAV of the fund moves in a manner inconsistent with the movements of the benchmark index on any given day or over any given period of time from any cause or reason whatsoever including but not limited to expenditure incurred by the scheme, dividend payouts if any, whole cash not invested at all times as it may keep a portion of funds in cash to meet redemption etc.

**Tracking error could be the result of a variety of factors including but not limited to:**

- Holding of a cash position to meet redemptions or to distribute dividend.
- Payment of scheme related expenses.
- Corporate actions announced by the issuers of securities representing the Nifty PSU Bank Index like conversion of warrants/debentures, rights, mergers/demergers, issue of rights shares, disinvestment or offer for sale by government, dividend payout, etc
- Rounding off of quantity of shares in the underlying index

##### C. How will the scheme allocate its assets?

The asset allocation under the Scheme, under normal circumstances, is as follows:

Investments	Indicative Allocation (% to net assets)	Risk Profile
Stocks comprising Nifty PSU Bank Index	90% to 100%	Medium to High
Debt and money market instruments	0% to 10%	Low

##### About the Index:

The Indian banking system, reaping the benefits of strong credit off take and improved risk management practices, has continued to report increase in earnings over the last five years, while improving on its solvency profile substantially.

The emergence of the rural middle class segment and creation of many jobs in the last five years provided a large market for banks. To cater the needs of potential customers, public sector banks have taken various initiatives to improve their core fee income over the last few years.

The public sector banks with their existing widespread branch network have been primarily increasing their IT related expenditure. The core profitability of the public sector banks continue to

rise on the back of improving operating efficiencies. PSU Banks account for 70.3 percent in terms of total assets held for 2006-07 along with total business share amounting to 73 percent for 2006-07.

Consolidation would further improve PSU banks' competitive edge against their private counterparts in servicing customers — both retail and corporate — in the international and domestic markets. Recognizing these changing dynamics of Indian banking industry, IISL has developed PSU Bank Index to capture the performance of the PSU banks.

### **Methodology**

Nifty PSU Bank Index is computed using free float market capitalization weighted method with base date of Jan 1, 2004 indexed to base value of 1000, wherein the level of the index reflects the total free float market value of all the stocks in the index relative to a particular base period. The method also takes into account constituent changes in the index and importantly corporate actions such as stock splits, rights, etc. without affecting the index value.

### **Market Representation**

- The NIFTY PSU Bank Index represents about 2.6% of the free float market capitalization of the stocks listed on NSE and 92% of the free float market capitalization of the stocks forming part of the PSU Bank universe as on March 31, 2017.
- The total traded value for the last six months ending March 2017 of all index constituents is approximately 5% of the traded value of stocks on the NSE and 96% of the traded value of the stocks forming part of the PSU Bank universe.

At present (as on June 19, 2017) the index has the following 11 stocks from the banking sector traded on the National Stock Exchange.

<b>Security Name</b>	<b>% Weight in the Index</b>
Allahabad Bank.	1.12
Andhra Bank	0.97
Bank Of Baroda	11.23
Bank of India	2.48
Canara Bank	5.11
Industrial Development Bank of India Ltd.	1.50
Oriental Bank of Commerce	1.28
Punjab National Bank	7.76
State Bank Of India	64.65
Syndicate Bank	1.16
Union Bank Of India	2.73

## **Selection Criteria**

Selection of the index set is based on the following criteria:

- Companies ranked within top 800 based on both average daily turnover and average daily full market capitalisation based on previous six months period data are considered eligible.
- Constituent should be a Public sector bank
- The company's trading frequency should be at least 90% in the last six months.
- The company should have a listing history of 6 months. A company which comes out with an IPO will be eligible for inclusion in the index, if it fulfills the normal eligibility criteria for the index for a 3 month period instead of a 6 month period.
- The constituents should be available for trading in the derivatives segment (Stock Futures & Options market) on NSE.
- The companies are sorted in the descending order of the Free-Float Market capitalization (FFMcap) and the final selection of maximum of 12 companies shall be done based on the FFMcap.

### **D. Where will the scheme invest?**

Subject to the Regulations, the amount collected under the scheme can be invested in any (but not exclusively) of the following securities/ instruments, as per the indicative asset allocation given under the heading “How will the Scheme allocate its assets”:

The Fund would invest not less than 90% of its corpus in stocks comprising the underlying index and endeavor to track the benchmark index.

Kotak PSU Bank ETF is an index exchange traded fund and aims to track the benchmark index, i.e. Nifty PSU Bank Index and yield as closely as possible and therefore will follow a passive investment strategy. As the scheme has to track the benchmark index, the scheme will attempt to retain least amount of cash and will also try to avoid investment in debt/money market instruments.

### **Stated below are the key features of other ETF schemes of Kotak Mahindra Mutual Fund.**

1. Kotak Sensex ETF – Kotak Sensex ETF is the only exchange traded fund offered by Kotak Mahindra Mutual Fund which seeks to provide returns before expenses that closely correspond to the total returns of the S & P BSE SENSEX subject to tracking errors.
2. Kotak Nifty ETF – Kotak Nifty ETF is the only exchange traded fund offered by Kotak Mahindra Mutual Fund which seeks to provide returns before expenses that closely correspond to the total returns of the Nifty 50 subject to tracking errors.
3. Kotak Banking ETF - is the only exchange traded fund at Kotak Mahindra Mutual Fund which seeks to provide returns before expenses that closely correspond to the total returns of the Nifty Bank Index subject to tracking errors.
4. Kotak Gold ETF - Kotak Gold ETF is the only exchange traded fund offered by Kotak Mahindra Mutual Fund which seeks to generate returns that are in line with the returns on investment in physical gold.
5. Kotak NV 20 ETF - Kotak NV 20 ETF is the only exchange traded Fund offered by Kotak Mahindra Mutual Fund which aims to provide returns that closely correspond to the total returns of stocks as represented by Nifty 50 Value 20 Index

## **E. What are the investment strategies?**

### **Risk Control Measures for investment strategy**

The Fund would invest not less than 90% of its corpus in stocks comprising the underlying index and endeavor to track the benchmark index.

Kotak PSU Bank ETF is an index exchange traded fund and aims to track the benchmark index, i.e. Nifty PSU Bank Index and yield as closely as possible and therefore will follow a passive investment strategy. As the scheme has to track the benchmark index, the scheme will attempt to retain least amount of cash and will also try to avoid investment in debt/money market instruments.

The Schemes' performance may be affected by a general price decline in the stock markets. The Scheme invests in the stocks comprising the index regardless of their investment merit. The Mutual Fund does not attempt to take defensive positions in declining markets.

### **Risk control measures for investment strategy**

The scheme aims to track the Nifty PSU Bank Index as closely as possible post expenses. The index is tracked on a regular basis and changes to the constituents or their weights, if any, are replicated in the underlying portfolio with the purpose of minimizing tracking error.

### **Risk mitigation measures for portfolio volatility**

Being a banking sector focused ETF; the scheme carries higher risk compared to a diversified equity scheme. However the portfolio follows the Nifty PSU Bank Index and therefore the level of stock concentration in the portfolio and its volatility would be the same as that of the index, subject to tracking error. Also being passively managed, the scheme carries lesser risk as compared to active fund management. The fund manager would endeavor to keep cash levels at the minimal to control tracking error.

### **Risk mitigation measures for managing liquidity**

The Nifty PSU Bank Index represents about 2.3% of the free float market capitalization of the stocks listed on NSE and 91.1% of the free float market capitalization of the stocks forming part of the PSU Banks sector Universe as on March 31, 2016. Thus the index comprises of the most liquid PSU bank stocks and therefore liquidity issues in the scheme are not envisaged.

### **Portfolio Turnover**

Portfolio Turnover is defined as the aggregate of purchases and sales as a percentage of the corpus during the specified period of time.

Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. Kotak PSU Bank ETF is a passively managed exchange traded open-ended index scheme. It is therefore expected that there would be a number of subscriptions and redemptions on a daily basis through Authorised participants and Large Investors. Generally, turnover will depend upon the extent of purchase and redemption of units

and the need to rebalance the portfolio on account of change in the composition, if any, and corporate actions of securities included in Nifty PSU Bank Index

### Portfolio Turnover Ratio: 20.5

#### F. Fundamental attributes

### C. Computation of NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The Fund shall value its investments according to the valuation norms, as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

NAV of Units under the Scheme will be calculated as shown below:

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current assets including Accrued Income} - \text{Current Liabilities and provisions including accrued expenses}}{\text{No. of Units outstanding under the Scheme/Option.}}$$

NAV for the Scheme and the repurchase prices of the Units will be calculated and announced at the close of each Business Day. The NAV shall be computed upto four decimals

The AMC may also calculate intra-day indicative NAV and publish the same on its website [assetmanagement.kotak.com](http://assetmanagement.kotak.com). Intra-day NAV will not have any bearing on the creation or redemption of units directly with the Fund by the AP/LI.

## V. FEES AND EXPENSES

This section outlines the expenses that will be charged to the schemes.

### A. New Fund Offer (NFO) Expenses

This is an ongoing scheme on the date of updating this document

### B. Total Expense Ratio (TER)

Total Expense Ratio is the total of ongoing fees and operating expenses charged to the scheme, expressed as a percentage of the scheme's daily net assets.

These fees and expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, brokerage/commission, marketing and selling costs etc.

The maximum TER shall not exceed 1.50% of daily Net Assets.

#### Total Expense Ratio for the schemes

The AMC has estimated the above given recurring expenses, for each scheme. Total expense ratio of each Scheme (including investment and advisory fees) will be subject to the maximum limits (as a percentage of Daily Net Assets of the Scheme) as per Regulation 52(6) & (6A), as amended from time to time, with no sub-limit on investment and advisory fees.

Expenses Structure	% of daily Net Assets

Brokerage & transaction cost over and above 12 bps and 5 bps for cash and derivative market trades resp.	
Service tax on expenses other than investment and advisory fees	
Service tax on brokerage and transaction cost	
Other Expenses	

<b>Maximum total expense ratio (TER) permissible under Regulation 52 (6)(c) (i) and (6) (a)</b>	<b>Upto 1.50%</b>
Additional expenses under regulation 52 (6A) (c)	Upto 0.20%
Additional expenses for gross new inflows from specified cities	Upto 0.30%

**Illustration of impact of expense ratio on scheme return:**

Assumed 1 year Simple Average Return of the Scheme before expenses	15%
Assumed Average TER Expense of the scheme for the year (%)	2%
Average Return after charging the expense	13%

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme.

**Additional expenses which may be charged to the Schemes:**

The following additional expenses may be charged to the Schemes under Regulation 52 (6A), namely-

- Brokerage and transaction costs (including service tax) which are incurred for the purpose of execution of trade and is included in the cost of investment, not exceeding 0.12 per cent in case of cash market transactions and 0.05 per cent in case of derivatives transactions. Any payment towards brokerage and transaction cost, over and above the said 12 bps and 5bps for cash market transactions and derivatives transactions respectively may be charged to the scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under regulation 52. Any expenditure in excess of the said prescribed limit (including brokerage and transaction cost, if any) shall be borne by the AMC.
- Expenses not exceeding of 0.30 % of daily net assets, if the new inflows from beyond top 15 cities are at least:
  - (i) 30 % of gross new inflows in the scheme; or
  - (ii) 15 % of the average assets under management (year to date) of the scheme; whichever is higher.

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilized for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.
- Additional expenses upto 0.20% of daily net assets of the schemes, incurred towards different heads mentioned under Regulation 52 (2) and 52 (4).

**Service Tax:**

Service Tax on investment and advisory fees may be charged to the scheme in addition to the maximum limit of TER as prescribed in Regulation 52(6)(c). Service tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per Regulation 52.

The estimates are based on an amount of Rs. 100 crores for the Scheme and will change to the extent assets are lower or higher.

The aforesaid estimates are made in good faith by the Investment Manager and are subject to change inter se among the various heads of expenses and between the Plans. It may also be noted that the total expenses of the Plans will also be subject to change within the overall limits of expenses under Regulation 52. Actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Fund, however the expenses charged will not exceed the statutory limit prescribed by the Regulations. Any expenditure in excess of the limits specified in Regulation 52 shall be borne by the AMC. The differential portion of expenses if any, post charging of actual expenses will be adjusted in the investment management fee charged by the investment manager. There will be no sub limit on management fee, and it shall be within the overall TER specified above.

For the actual current expenses being charged, the investor may refer to the website of the mutual fund.

### **C. Load structure**

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of [mutualfund.kotak.com](http://mutualfund.kotak.com) or may call at 1800-22-2626 or your distributor.

#### **Entry Load: Nil**

In terms of SEBI Circular No. SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009, no entry load will be charged on purchase / additional purchase / switch-in. The upfront commission, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

#### **Exit Load: Nil**

Any exit load charged (net off Service Tax, if any) shall be credited back to the Scheme.

Units issued on reinvestment of dividends shall not be subject to entry and exit load.

The Trustee reserves the right to change the load structure of the Scheme on a prospective basis. Should the Trustee, on any date, decide to change the load structure, it will be on a prospective basis and investments made by Unitholders prior to such date will continue to attract the loads applicable prior to such change.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

The investor is requested to check the prevailing load structure of the scheme before investing.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.

Any imposition or enhancement in load shall be applicable on a prospective basis. The addendum detailing the changes may be attached to Scheme Information Documents and key information memorandum. The addendum may be circulated to all the distributors/brokers so that the same can be attached to all Scheme Information Documents and key information memoranda already in stock. Arrangements may be made to display the addendum in the Scheme Information Document in the form of a notice in all the investor service centres and distributors/brokers office. The introduction of the exit load/ CDSC alongwith the details may be stamped in the acknowledgement slip issued to the investors on submission of the application form and may also be disclosed in the statement of accounts issued after the introduction of such load/CDSC. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated. In case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to SID already in stock till it is updated.
