II. INTRODUCTION

A. Risk Factors

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Kotak Multi Asset Allocation Fund is only name of the scheme does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs.2,50,000 made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

Scheme Specific Risk Factors

- The Portfolio of the Scheme will comprise predominantly of Debt and Money Market instruments issued by Corporates, and to a lesser extent those issued by Central or State Governments. As such, there would be Moderate Credit Risk. The risks integral to Fixed Income securities are explained in detail below.
- Equity and Equity Related Instruments by nature are volatile and prone to price fluctuations on a daily basis due to macro and micro economic factors. The value of Equity and Equity Related Instruments may fluctuate due to factors affecting the securities markets such as volume and volatility in the capital markets, interest rates, currency exchange rates, changes in law/policies of the Government, taxation laws, political, economic or other developments, which may have an adverse impact on individual securities, a specific sector or all sectors. Consequently, the NAV of the Units issued under the Scheme may be adversely affected.
- Further, the Equity and Equity Related Instruments are risk capital and are subordinate in the right of payment to other securities, including debt securities. Equity and Equity Related Instruments listed on the stock exchange carry lower liquidity risk, however the Scheme's ability to sell these investments is limited by the overall trading volume on the stock exchanges. In certain cases, settlement periods may be extended significantly by unforeseen circumstances. The inability of the Scheme to make intended securities purchases due to settlement problems could cause the Scheme to miss certain investment opportunities.
- Similarly, the inability to sell securities held in the Scheme's portfolio may result, at times, in potential losses to the Scheme, should there be a subsequent decline in the value of securities held in the Scheme's portfolio.
- The Scheme may invest in securities which are not listed on the stock exchanges. These securities may be illiquid in nature and carry a higher amount of liquidity risk, in comparison to securities that are listed on the stock exchanges or offer other exit options to the investor. The liquidity and valuation of the Scheme's investments due to its holdings of unlisted securities may be affected if they have to be sold prior to the target date of disinvestment.
- The value (price) of gold may fluctuate for several reasons and all such fluctuations will result in changes in the NAV of units under the scheme. The factors that may affect the price of gold, among other things, include demand and supply for gold in India and in the global market, Indian and Foreign exchange rates, Interest rates, Inflation trends, trading in gold, legal restrictions on the movement/trade of gold that may be imposed by RBI, Government of India or countries that

supply or purchase gold to/from India, trends and restrictions on import/export of golden jewellery in and out of India, etc.

- As the Gold Exchange Traded Funds (Gold ETFs in which the Scheme will invest) will be investing physical gold and gold related instruments, the NAV of the underlying scheme as well as this Scheme will react to the price of gold. The price of gold may vary for several reasons and all such fluctuations will result in changes in NAV of the units of underlying scheme as well as this Scheme. The prices of gold may be affected by several factors such as demand and supply of gold in India and in the global market, change in political, economical environment and government policy, inflation trends, currency exchange rates, interest rates, perceived trends in bullion prices, restrictions on the movement/trade of gold by RBI, GOI, etc. Absence of adequate liquidity of Gold ETFs units on the stock exchange(s) may impact the cost of purchasing and selling the units of Gold ETFs.
- The funds in which the Scheme invests may not perform in line with the market and may also not achieve its investment objective. In such a situation, the performance of the Scheme could be affected and its ability to achieve its investment objective may be impaired.

a) Risks Associated with Fixed Income and Money Market Instruments:

➤ **Price-Risk or Interest-Rate Risk:**

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof.

Floating rate securities issued by a government (coupon linked to treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

➤ **Credit Risk**

Securities carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Favourability of Foreign Currency conversion rates, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers lenders prefer higher rated instruments further justifying the lower yields.

➤ **Liquidity or Marketability Risk**

The corporate debt market is relatively illiquid vis- a- vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. Even though the Government Securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information (SAI).

➤ **Risk of Rating Migration:**

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.00% p.a., its market value would drop to Rs. 97.53 (i.e. 2.47%) If the security is up-graded to AAA category which commands a market yield of, say, 9.00% p.a. its market value would increase to Rs102.51 (i.e. by 2.51%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

Rating	Yield (% p.a.)	Market Value (Rs.)
AA	10.00	100.00
If upgraded to AAA	9.00	102.51
If downgraded to A	11.00	97.53

➤ **Basis Risk:**

During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

➤ **Spread Risk:**

In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. However depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

➤ **Re-investment Risk**

Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently the proceeds may get invested at a lower rate.

b) Risk associated with Equity and Equity Related Instruments:

➤ **Price fluctuations and Volatility:**

Mutual Funds, like securities investments, are subject to market and other risks and there can be neither a guarantee against loss resulting from an investment in the Scheme nor any assurance that the objective of the Scheme will be achieved. The NAV of the Units issued under the Scheme can go up or down because of various factors that affect the capital market in general, such as, but not limited to, changes in interest rates, government policy and volatility in the capital markets. Pressure on the exchange rate of the Rupee may also affect security prices.

➤ **Liquidity Risks:**

Liquidity in Equity investments may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by KMMF for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the SAI.

c) Risk associated with Investments in Derivatives

- i. In case of investments in index futures, the risk would be the same as in the case of investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. In case futures are used for hedging a portfolio of stocks, which is different from the index stocks, the extent of loss could be more or less depending on the coefficient of variation of such portfolio with respect to the index; such coefficient is known as Beta.
- ii. The risk (loss) for an options buyer is limited to the premium paid, while the risk (loss) of an options writer is unlimited, the latter's gains being limited to the premiums earned. However, in the case of KMMF, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the exercise price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the exercise price.
- iii. Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies.
- iv. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investments.

d) Risks associated with Securities Lending

As with other modes of extensions of credit, there are risks inherent to securities lending, including the risk of failure of the other party, in this case the approved intermediary, to comply with the terms of the agreement entered into between the lender of securities i.e. the Scheme and the approved intermediary. Such failure can result in the possible loss of rights to the collateral put up by the borrower of the securities, the inability of the approved intermediary to return the securities deposited by the lender and the possible loss of any corporate benefits accruing to the lender from the securities

deposited with the approved intermediary. The Fund may not be able to sell such lent securities and this can lead to temporary illiquidity.

B. REQUIREMENT OF MINIMUM INVESTORS IN THE SCHEME

The Scheme/Plan shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme/Plan(s). However, if such limit is breached during the NFO of the Scheme, the Fund will endeavour to ensure that within a period of three months or the end of the succeeding calendar quarter from the close of the NFO of the Scheme, whichever is earlier, the Scheme complies with these two conditions. In case the Scheme / Plan(s) does not have a minimum of 20 investors in the stipulated period, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme / Plan(s) shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of the 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days notice to redeem his exposure over the 25 % limit. Failure on the part of the said investor to redeem his exposure over the 25 % limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

C. SPECIAL CONSIDERATION:

- i) Prospective investors should review/study SAI along with SID carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscriptions, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of units within their jurisdiction/nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift units are subject, and also to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding units before making an application for units.
- ii) Neither this SID and SAI, nor the units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration and accordingly, any person who gets possession of this SID is required to inform themselves about, and to observe, any such restrictions. It is the responsibility of any persons in possession of this SID and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/NSE/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.
- iii) Kotak Mahindra Mutual Fund/AMC has not authorised any person to give any information or make any representations, either oral or written, not stated in this SID in connection with issue of units under the Schemes. Prospective investors are advised not to rely upon any information or representations not incorporated in the SAI and SID as the same have not been authorised by the Fund or the AMC. Any purchase or redemption made by any person on the basis of statements or representations which are not contained in this SID or which are not consistent with the information contained herein shall be solely at the risk of the investor. The

investor is requested to check the credentials of the individual, firm or other entity he/she is entrusting his/her application form and payment to, for any transaction with the Fund. The Fund shall not be responsible for any acts done by the intermediaries representing or purportedly representing such investor.

- iv) If the units are held by any person in breach of the Regulations, law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations, the Fund may mandatorily redeem all the units of any Unit holder where the units are held by a Unit holder in breach of the same. The Trustee may further mandatorily redeem units of any Unit holder in the event it is found that the Unit holder has submitted information either in the application or otherwise that is false, misleading or incomplete.
- v) If a Unit holder makes a redemption request immediately after purchase of units, the Fund shall have a right to withhold the redemption request till sufficient time has elapsed to ensure that the amount remitted by the Unit holder (for purchase of units) is realized and the proceeds have been credited to the Scheme's Account. However, this is only applicable if the value of redemption is such that some or all of the freshly purchased units may have to be redeemed to effect the full redemption.
- vi) In terms of the Prevention of Money Laundering Act, 2002 ("PMLA") the rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML) Laws, all intermediaries, including mutual funds, are required to formulate and implement a client identification programme, and to verify and maintain the record of identity and address(es) of investors.

If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report any such suspicious transactions to competent authorities under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI, furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI and/or RBI without obtaining the prior approval of the investor/Unit holder/any other person.

vii) Purchase/ Redemption of units of the scheme through Stock Exchange Infrastructure

Kotak Mahindra Asset Management Company Limited (KMAMC) offers an alternate transaction platform to facilitate purchase/redemption of units in Demat form of certain schemes of Kotak Mahindra Mutual Fund on Mutual Fund Service System (MFSS) of the National Stock Exchange India Limited (NSE) and on the BSE Stock Exchange Platform for Allotment and Repurchase of Mutual Funds (BSE StAR MF System) of the Bombay Stock Exchange (BSE). KMAMC has entered into an arrangement with NSE & BSE for facilitating transactions in select Kotak Mahindra Mutual Fund schemes through the stock exchange brokers who are AMFI Certified.

- Unit holders, both existing and new, having a demat account can only participate through this facility. However, switch transactions, SWP, STP are currently not available under this facility. Switch Transactions are permitted only BSE StarMF platform.
- MFSS and BSE StAR MF are electronic platforms introduced by National Stock Exchange (NSE) & Bombay Stock Exchange (BSE) respectively for transacting in units of mutual funds. The units of eligible Schemes are not listed on NSE & BSE and the same cannot be traded on the Stock Exchange like shares. The window for purchase/redemption of units on MFSS and BSE StAR MF will be available between 9:00 a.m. and 3:00 p.m. or such other timings as may be intimated by the exchanges. The applicability of NAV will be subject to guidelines issued by SEBI on Uniform cut-off timings for applicability of NAV of Mutual Fund Scheme(s)/Plan(s). Currently, the cut-off time is 3:00 p.m. for Non-Liquid Schemes.

Eligible Participants

- All trading members of NSE & BSE who are registered with AMFI as Mutual Fund Advisors and also registered with NSE & BSE as Participants will be eligible to offer this facility to investors.
- The eligible AMFI Certified Stock Exchange brokers will be considered as official point of acceptance of Kotak Mahindra Mutual Fund in accordance with provisions of SEBI circular no SEBI/IMD/Cir No. 11/78450/06 dated October 11, 2006.

III. INFORMATION ABOUT THE SCHEME

Kotak Multi Asset Allocation Fund

A. Type of the scheme:

An open ended hybrid scheme

B. What is the investment objective of the scheme?

The investment objective of the scheme is to generate income by investing predominantly in debt and money market securities, to generate growth by taking moderate exposure to equity and equity related instruments and provide diversification by investing in Gold ETFs

There is no assurance or guarantee that the investment objective of the scheme will be achieved.

C. How will the scheme allocate its assets?

The asset allocation under the Scheme, under normal circumstances, is as follows:

Investments	Indicative Allocation (% to net assets)	Risk Profile
Debt and money market instruments	40% to 90%	Low
Equity and equity related instruments	5% to 40%	High
Units of Gold ETFs *	5% to 20%	Medium to High

* Investments will be made in Gold ETF's based on considerations of price, tracking error, performance, portfolio, expense ratio, materiality of differences etc., based on the judgement of the fund manager. The scheme may also invest in Kotak Gold ETF, subject to investment restrictions.

The total gross exposure investment in equity + debt + money market instruments (excluding cash and cash equivalents with residual maturity of less than 91 days) + derivatives positions+ Gold ETF shall not exceed 100% of net assets of scheme.

The scheme will not invest in securitised debt.

Portfolio Rebalancing

Subject to SEBI (MF) Regulations, the asset allocation pattern indicated above may change from time to time, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. It must be clearly understood that the percentages stated above are only indicative and not absolute. These proportions may vary substantially at the sole discretion of the Fund Manager, on short term defensive consideration or according to the interest rate view of the Fund Manager; the intention being at all times to seek to protect the interests of the Unit holders. In case of any deviation, the AMC will achieve a normal asset allocation pattern within 30 days. Where the portfolio is not rebalanced within 30 Days, justification for the same shall be placed before the Investment Committee and reasons for the same shall be recorded in writing. The Investment committee shall then decide on the course of action. However, at all times the portfolio will adhere to the overall investment objective of the Scheme.

Overview of Debt Market

The Indian Debt Market has grown in size substantially over the years. The Reserve Bank of India has been taking steps to make the Indian Debt Market efficient and vibrant. Broadly, the debt market is divided in two parts viz. the Money Market and the Debt market. Money market instruments have a tenor of less than one year while debt market instruments have a tenor of more than one year. Money market instruments are typically commercial paper, certificates of deposit, treasury bills, trade bills, repos, interbank call deposit receipts etc. Debt market comprises typically of securities issued by Governments (Central and State), Banks, Financial Institutions, and Companies in the private and public sector, Corporations, Statutory Bodies etc.

The debt securities are mainly traded over the telephone directly or through brokers. The National Stock Exchange of India has a separate trading platform called the Wholesale Debt Market segment where trades put through member brokers are reported.

RBI has introduced the Negotiated Dealing System (NDS) platform for screen-based trading in Government Securities and Money Market instruments. Most of the market participants are now operating through NDS.

Promoted by major banks and financial institutions, The Clearing Corporation of India Ltd. (CCIL) was incorporated on April 30, 2001. The CCIL guarantees the settlement of all trades executed through NDS. The clearing and settlement risks viz., Counter party Credit Risk and Operational Risk are mitigated by CCIL thereby facilitating a smooth settlement process.

The following table gives approximate yields prevailing as on June 20, 2017 on some of the money and debt market instruments. These yields are indicative and do not indicate yields that may be obtained in future as interest rates keep changing.

Instrument	Yield Range (% per annum)
Inter bank Call Money	6.20 - 6.25
91 Day Treasury Bill	6.25 – 6.30
364 Day Treasury Bill	6.35 – 6.40
P1+ Commercial Paper 90 Days	6.35 – 6.40
3-Year Government of India Security	6.45 – 6.49
5-Year Government of India Security	6.54 – 6.60
10-Year Government of India Security	6.40 – 6.45

Generally, for instruments issued by a non-Government entity, the yield is higher than the yield on a Government Security with corresponding maturity. The difference, known as credit spread, depends on the credit rating of the entity. Investors must note that the yields shown above are the yields prevailing on June 20, 2017, and they are likely to change consequent to changes in economic conditions and RBI policy.

D. Where will the scheme invest

The amount collected under the scheme will be invested in debt and money market instruments, equity and equity related instruments and units of Gold ETFs. Subject to the Regulations, the amount collected under this scheme can be invested in any (but not exclusively) of the following:

- a. Securities created and issued/ guaranteed by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).

- b. Debt obligations of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee (including but not limited to Indian Government Bond, State Development Loans issued and serviced at the Public Debt Office, Bonds issued by Central & State Government PSU's which are guaranteed by Central or State Governments)
- c. Corporate debt (of both public and private sector undertakings) including Non convertible debentures (including bonds) and non-convertible part of convertible securities..
- d. Obligations/ Term Deposits of banks (both public and private sector) and development financial institutions and other bodies corporate as may be permitted by SEBI from time to time
- e. Money market instruments permitted by SEBI/RBI, having maturities of up to one year or in alternative investment for the call money market as may be provided by the RBI to meet the liquidity requirements.
- f. Certificate of Deposits (CDs).
- g. Repo of corporate debt securities.
- h. Commercial Paper (CPs), CBLO, Bills re-discounting, Reverse repos, & other money market instruments as may be permitted by SEBI from time to time.
- i. The non-convertible part of convertible securities.
- j. Debentures
- k. Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.
- l. Derivative instruments like Interest Rate Swaps, Interest Rate Futures, Forward Rate Agreements and such other derivative instruments permitted by SEBI/RBI.
- m. Equity and equity related securities including convertible bonds and debentures and warrants carrying the right to obtain equity shares.
- n. Units of Gold ETFs. The scheme may invest fully in Kotak Gold ETF to the extent as stated in asset allocation table.
- o. Any other instruments / securities, which in the opinion of the fund manger would suit the investment objective of the scheme subject to compliance with extant Regulations.

The securities mentioned above could be listed or unlisted, secured or unsecured, rated or unrated and of varying maturities and other terms of issue. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offer or negotiated deals. The Schemes may also enter into repurchase and reverse repurchase obligations in all securities held by it as per guidelines/regulations applicable to such transactions.

INVESTMENT IN DERIVATIVES

Interest Rate Swap (IRS)

IRS is a widely used derivative product in the financial markets to manage interest rate risk. A typical transaction is a contract to exchange streams of interest rate obligation/income on a notional principle amount with a counter party, usually a bank. The two interest streams are, fixed rate on one side and floating rate on the other.

Example: Suppose the Fund holds a fixed rate bond of maturity 5 years carrying a fixed interest rate (coupon) of 6% p.a. payable half yearly. Such an investment runs the risk of depreciation if interest rates rise. To manage this risk, the Fund can enter into an IRS with another market participant, here the Fund contracts to pay fixed rate, say 5.25% p.a., and receive a floating rate (say overnight MIBOR). This transaction is done for a notional principal amount equal to the value of the investment. By such a contract a fixed rate income is offset by a fixed rate payment obligation leaving only a floating rate income stream. Thus, without actually investing in a floating rate asset, the Fund starts earning a floating rate income, reducing the risk of depreciation associated with the fixed rate investment. Following table summarises the cash flow streams:

Original investment	6% p.a.
Pay (Fixed rate)	5.25% p.a. (IRS)
Receive (Floating rate)	MIBOR
Net Flow	MIBOR + 0.75% p.a. (*)

* (6% p.a. – 5.25 % p.a.)

The floating rate reference is defined in the swap agreement. The above example illustrates a case of fixed to floating rate swap. A swap could be done to move from floating rate to fixed rate in a similar fashion.

Please note that the above example is hypothetical in nature and the interest rates are assumed. The actual return may vary based on actual and depends on the interest rate prevailing at the time the swap agreement is entered into.

Interest Rate Futures (IRFs)

Interest Rate Futures (IRF) contract is an agreement to buy or to sell a debt instrument at a specified future date at a price that is fixed today. Exchange traded IRFs are standardised contracts based on a notional coupon bearing Government of India (GOI) security. National Securities Clearing Corporation Limited (NSCCL) is the clearing and settlement agency for all deals executed in Interest Rate Futures. NSCCL acts as legal counter-party to all deals on Interest Rate Futures contract and guarantees settlement.

Using IRFs

- **Directional trading**

As there is an inverse relationship between interest rate movement and underlying bond prices, the futures price also moves in tandem with the underlying bond prices. If one has a strong view that interest rates will rise in the near future and wants to benefit from rise in interest rates; one can do so by taking short position in IRF contracts.

Example:

A trader expects long-term interest rate to rise. He decides to sell Interest Rate Futures contracts as he shall benefit from falling future prices.

Expectation	Position
Interest Rates going up	Short Futures
Interest Rates going down	Long Futures

- Trade Date- 1st January 2017
- Futures Delivery date – 1st February 2017
- Current Futures Price- Rs. 97.50
- Futures Bond Yield- 8.21%
- Trader sell 250 contracts of the February 2017 - 10 Year futures contract on NSE on 1st January 2017 at Rs. 97.50

Assuming the price moves to Rs. 97.15 on January 9, 2017, net MTM gain would be Rs. 1,75,000 (250*2000*97.50-97.15) (I)

Closing out the Position

- 10th January 2017 - Futures market Price – Rs. 96.70
- Trader buys 250 contracts of February 2017 at Rs. 96.70 and squares off his position
- Therefore total profit for trader 250*2000*(97.15-96.70) is Rs.2,25,000 (II)
- Total Profit on the trade = INR 4,00,000 (I & II)

Hedging

Holders of the GOI securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts.

Example:

Date: 01- January -2017

Spot price of GOI Security: Rs 105.05

Futures price of IRF Contract: Rs 105.12

On 01-January-2017 XYZ bought 2000 GOI securities from spot market at Rs 105.07. He anticipates that the interest rate will rise in near future. Therefore to hedge the exposure in underlying market he may sell February 2017 Interest Rate Futures contracts at Rs 105.12

On 16- February-2017 due to increase in interest rate:

Spot price of GOI Security: Rs 104.24

Futures Price of IRF Contract: Rs 104.28

Loss in underlying market will be $(104.24 - 105.05) * 2000 = \text{Rs } 1620$

Profit in the Futures market will be $(104.28 - 105.12) * 2000 = \text{Rs } 1680$

Arbitrage

Arbitrage is the price difference between the bonds prices in underlying bond market and IRF contract without any view about the interest rate movement. One can earn the risk-less profit from realizing arbitrage opportunity and entering into the IRF contract.

Example:

On 18th January, 2017 buy 6.35% GOI '20 at the current market price of Rs. 97.2485

Step 1 - Short the futures at the current futures price of Rs. 97.80

Step 2 - Fund the bond by borrowing up to the delivery period (assuming borrowing rate is 8.00%)

Step 3 - On 10th February 2017, give a notice of delivery to the exchange

Under the strategy, the trader has earned a return of

$= (97.800 - 97.2485) / 97.2485 * 365 / 23$

$= 9.00\%$ (implied repo rate)

(Note: For simplicity accrued interest is not considered for calculation)

Against its funding cost of 8.00% (borrowing rate), thereby earning risk free arbitrage.

E. What are the investment strategies?

To achieve the investment objective, the investment strategy would be directed to investing in debt and money market instruments, equity and equity related instruments, and units of Gold ETFs as indicated in the investment pattern.

Investments in debt instruments would be in securities, which, in the opinion of the Fund Manager, are of acceptable credit risk where chances of default are at a minimum. The Fund Manager may generally be guided by, but not restrained by, the ratings announced by various rating agencies on the assets in the portfolio. The maturity profile of debt instruments may be selected in accordance with the Fund Manager's view regarding market conditions, interest rate outlook and stability of rating.

The scheme may invest in equity & equity related instruments, which in the opinion of the Fund Manager, are priced at a material discount to their intrinsic value. Such intrinsic value will be a

function of both past performance and future growth prospects. The process of discovering the intrinsic value will be through in-house research, supplemented by research available from other sources.

Investment in gold would be in units of Gold ETFs, which follows a passive investment strategy either directly or through the secondary market. Investments will be made in Gold ETF's based on considerations of price, tracking error, performance, portfolio, expense ratio, materiality of differences etc., based on the judgment of the fund manager. The scheme may also invest in Kotak Gold ETF, subject to investment restrictions.

Allocation to various asset classes reduces the overall risks of the portfolio. Historically it is observed that gold has a negative or very low co-relation with asset classes like equity and debt. Asset allocation thus diversifies the underlying portfolio risk.

The Scheme may use derivative instruments such as index futures, stock futures, index options, stock options, warrants, convertible securities, swap agreements or any other derivative instruments that are permissible or may be permissible in future under applicable regulations, as would be commensurate with the investment objective of the Scheme.

Risk Control Measures for investment strategy

As per the investment strategy, predominant allocation is to debt and money market instruments, which as an asset class as such has a low risk profile. Also maximum allocation to riskier assets like equity is capped at 40%. The internal investment committee would endeavor to review the portfolio composition and its strategy on a periodic basis and suggest corrective measures, if any.

Risk Mitigation measures for portfolio volatility

For the debt part of portfolio, the fund manager would seek to identify assets those are relatively high on accrual and those of high credit quality. Hence the volatility element in the portfolio is not expected to be very significant. The scheme also has allocation to gold. Gold has very low or negative co-relation to other asset classes hence the overall risk gets diversified.

Risk mitigation measures for managing liquidity -

Money market instruments are fairly liquid. The scheme would endeavor to invest in high quality debt instruments which can be easily traded. On the equity side, liquidity of stocks in the portfolio would be monitored on a periodic basis based on last three months average turnover in the stocks. Corrective action if necessary would be taken based on such monitoring. Liquidity in Gold ETFs can be managed by engaging authorised participants appointed by the asset management company managing such schemes.

Product Differentiation:

The scheme offers exposure to multiple asset classes like debt, equity and Gold ETF in the same portfolio, thereby aiming to provide income, growth and diversification at the same time. This is the only scheme which invests partially into debt and the balance would be used invested into equity for growth purpose, and in Gold ETF, which is an effective hedge against inflation. Such a strategy is different from any of the schemes that are currently offered by Kotak Mahindra Mutual Fund.

Stated below are the key features of other open ended debt schemes of Kotak Mahindra Mutual Fund.

Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees

For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 (Regulations) and shall include an entity, its subsidiaries, fellow subsidiaries, its holding company and its associates.

Any other securities as permitted by SEBI/RBI from time to time.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations.

All investment restrictions shall be applicable at the time of making investment.

Apart from the above investment restrictions, the Fund follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc, within the above mentioned restrictions, and these are subject to review from time to time

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supercede/override the provisions of the Trust Deed.

Exposure to Derivatives

In accordance with SEBI circulars nos. Cir/ IMD/ DF/ 11/ 2010 dated August 18, 2010, DNPD/Cir-29/2005 dated September 14, 2005, DNPD/Cir-30/2006 dated January 20, 2006, SEBI/DNPD/Cir-31/2006 dated September 22, 2006 and SEBI/HO/MRD/DP/CIR/P/2016/143 dated December 27, 2016, the following conditions shall apply to the Scheme's participation in the derivatives market. The investment restrictions applicable to the Scheme's participation in the derivatives market will be as prescribed or varied by SEBI or by the Trustees (subject to SEBI requirements) from time to time. The position limits as stipulated by the Regulations are as under: -

1. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.

2. Mutual Funds shall not write options or purchase instruments with embedded written options.
3. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
4. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
5. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following :-
 - a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
 - b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
 - c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
 - d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
6. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
7. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.

i. Position limit for the Mutual Fund in equity index options contracts

iv. Position limit for the Scheme

The position limits for the Scheme and disclosure requirements are as follows–

- a. For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of the Mutual Fund shall not exceed the higher of:

1% of the free float market capitalisation (in terms of number of shares).

Or

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).

- b. This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.
- c. For index based contracts, the Mutual Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

As and when SEBI notifies amended limits in position limits for exchange traded derivative contracts in future, the aforesaid position limits, to the extent relevant, shall be read as if they were substituted with the SEBI amended limits.

Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

Participation of schemes of Kotak Mahindra Mutual Fund in repo of corporate debt securities:

In accordance with SEBI circular no. CIR / IMD / DF / 19 / 2011 dated November 11, 2011 and CIR/IMD/DF/23/2012 dated November 15, 2012; schemes of Kotak Mahindra Mutual Fund (KMMF) shall participate in the corporate bond repo transactions w.e.f. June 21, 2013 as per the guidelines issued by Reserve Bank of India (RBI) from time to time. Currently the applicable guidelines are as under:

- The gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10 % of the net assets of the concerned scheme.
- The cumulative gross exposure through repo transactions in corporate debt securities along with equity, debt and derivatives shall not exceed 100% of the net assets of the concerned scheme.
- Mutual Funds shall participate in repo transactions only in AA and above rated corporate debt securities.
- In terms of Regulation 44 (2) mutual funds shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months

The investment restrictions applicable to the Scheme's participation in the corporate bond repos will also be as prescribed or varied by SEBI or by the Board of Kotak Mahindra Trustee Company Limited (subject to SEBI requirements) from time to time.

The following guidelines shall be followed by Kotak Mahindra Mutual Fund for participating in repo in corporate debt securities, which have been approved by the Board of AMC and Trustee Company.

(i) Category of counterparty to be considered for making investment:

All entities eligible for transacting in corporate bond repos as defined by SEBI and RBI shall be considered for repo transactions.

(ii) Credit rating of counterparty to be considered for making investment

The schemes shall participate in corporate bond repo transactions with counterparties having a minimum investment grade rating and is approved by the Investment Committee on a case-to-case basis. In case there is no rating available, the Investment Committee will decide the rating of the counterparty, and report the same to the Board from time to time.

(iii) Tenor of Repo and collateral

As a repo seller, the schemes will borrow cash for a period not exceeding 6 months or as per extant regulations.

As a repo buyer, the Schemes are allowed to undertake the transactions for maximum maturity upto one year or such other terms as may be approved by the Investment Committee.

There shall be no restriction / limitation on the tenor of collateral.

(iv) Applicable haircuts

As per RBI circular RBI/2012-13/365 IDMD.PCD. 09 /14.03.02/2012-13 dated 07/01/2013, all corporate bond repo transaction will be subject to a minimum haircut given as given below:

(1) AAA	: 07.50%
(2) AA+	: 08.50%
(3) AA	: 10.00%

The haircut will be applicable on the prevailing market value of the said security on the prevailing on the date of trade. However, the fund manager may ask for a higher haircut (while lending) or give a higher haircut (while borrowing) depending on the market prevailing liquidity situation.

Risk envisaged and mitigation measures for repo transactions:

Credit risks could arise if the counterparty does not return the security as contracted or interest received by the counter party on due date. This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also operational risks are lower as such trades are settled on a DVP basis.

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to us. Thus the scheme may in remote cases suffer losses. This risk is normally mitigated by better cash flow planning to take care of such repayments.

Investments by the AMC in the Fund

The AMC reserves the right to invest its own funds in the Scheme as may be decided by the AMC from time to time. Under the Regulations, the AMC is not permitted to charge any investment management and advisory services fee on its own investment in the Scheme.

Aggregate Investment by the Fund Managers in scheme is Nil.

<p>Plans under each scheme</p>	<p>Direct Plan and Regular Plan</p> <p>Direct Plan: This Plan is only for investors who purchase /subscribe Units in a Scheme directly with the Fund and is not available for investors who route their investments through a Distributor.</p> <p>Regular Plan: This Plan is for investors who wish to route their investment through any distributor.</p> <p>The portfolio of both plans will be unsegregated.</p>

Direct Plan

All characteristics such as Investment Objective, Asset Allocation Pattern, Investment Strategy, risk factors, minimum investment amount, additional investment amount, availability of options including sub options, SIP/STP/SWP facilities offered and terms and conditions including load structure will be the same for Direct Plan and Regular Plan . except that

- (a) Switch of investments from Regular Plan, where the transaction has been received with broker code (whether the investments were made before or after the January 1, 2013) to Direct Plan shall be subject to applicable exit load, if any.
- (b) No exit load shall be levied:
 - (i) in case of switch of investment from Regular Plan , where transaction has been received without broker code (whether the investments were made before or after the January 1, 2013) to Direct Plan.
 - (ii) in case of switch of investments from Direct Plan to Regular Plan .

Direct Plan shall have a lower expense ratio excluding distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

How to apply:

- Investors subscribing under Direct Plan of a Scheme will have to indicate “Direct Plan” against the Scheme name in the application form e.g. “**Kotak Multi Asset Allocation – Direct Plan**”.
- Investors should also indicate “Direct” in the ARN column of the application form.
- However, in case Distributor code is mentioned in the application form, but “Direct Plan” is indicated against the Scheme name, the application will be processed under Direct Plan.
- Further, where application is received for Regular Plan without Distributor code or “Direct” mentioned in the ARN Column, the application will be processed under Direct Plan.

Investments through systematic routes:

In case of Systematic Investment Plan (SIP) / Systematic Transfer Plan (STP)/, etc registered prior to the January 1, 2013 without any distributor code under the Regular Plan , installments falling on or after February 1, 2013 will automatically be processed under the Direct Plan. However, investors who intend to continue with their future installments in Regular Plan, may opt to do so by submitting a written request to AMC before February 1, 2013.

Investors who had registered for SIP/STP facility prior to January 1, 2013 with distributor code and wish to invest their future installments into the Direct Plan, shall make a written request to the Fund in this behalf. The Fund will take at least 15 days to process such requests. Intervening installments will continue in the Regular Plan.

The terms and conditions of the existing registered enrolment shall continue to apply.

	Redemption/Switch requests: Where Units under a Scheme are held under both Direct Plan and Regular Plan , investors should clearly mention the plan from which redemption/switch requests are to be processed. If the investor does not mention the plan then the application may be rejected.

The Fundamental Attributes and other terms and conditions regarding purchase/redemption, price and related matters are the same as contained in this SID.</p> <p>The first SIP can be for any date of the month on which a NAV is declared in the scheme. In respect of the second and all subsequent SIPs, investors can choose any one date among 1st, 7th, 14th, 21st, 25th and 30th as the SIP Date (in case of these days fall on non-</p>

business day the transaction will be effected on the next business day of the scheme. If 28th/29th February is a non-working day then the next working day would be considered as the SIP date) and can also choose the SIP frequency as monthly or quarterly subject however, to the condition that there shall be a minimum gap of 28 days between the first and the second SIP. The aforesaid minimum gap shall be applicable only for SIPs registered via direct / auto debit. The minimum SIP installment amount is Rs. 1000/-

The SIP request should be for a minimum of 10 months / quarters. The SIP payments can be made either by issue of Post Dated Cheques or by availing the Auto Debit Facility through ECS (available in select locations only) or by availing the Direct Debit Facility / Standing Instructions Facility (Unitholders may check with their bankers for availability of this facility.) However, the first investment in SIP through the Auto Debit Facility or Direct Debit Facility needs to be made compulsorily by issuance of a cheque from the account from which the Auto Debit / Direct Debit is requested. Investors can also submit SIP applications along with cancelled cheque leaf of the account from where the investor intends to commence the SIP.

If the first SIP investment is through a demand draft or pay order or the initial investment cheque is drawn from a bank account, other than the bank account mentioned in the SIP mandate, the investor has to ensure that the bank details and signatures are attested by the banker of the bank from where the SIP is initiated. Alternatively the investors should provide a copy of the cancelled cheque leaf of the bank account from where the investor intends to do the SIP.

The load structure applicable for each installment will be as per the load structure applicable at the time of registration of SIP. Changes in load structure effected by the AMC after that date may not be applicable unless stated specifically.

SIP facility is available on MFSS/BSE STAR platform also please refer to the information mentioned under “Special Consideration”.

SIP Booster Facility:

Description: It is a facility whereby an investor has an option to increase the amount of the SIP Installment by a fixed amount at pre-defined intervals. . This will enhance the flexibility of the investor to invest higher amounts during the tenure of the SIP.

Frequency: Half Yearly Basis and Yearly Basis.

Functionality of frequency:

The installment amount can be increased on a Half-Yearly and/or Yearly basis i.e. on completion of 6 months/1 year from the commencement of the first SIP.

SIP Frequency	SIP Booster Frequency	Default	Min Amount
Monthly	Half Yearly / Yearly	Yearly	Rs. 500 & in multiples of Rs. 500 thereof
Quarterly	Half Yearly / Yearly	Yearly	Rs. 500 & in multiples of Rs. 500 thereof

Other Terms:

- SIP Booster Facility shall be available with fresh registration of SIP only. If an existing investor wants to opt for SIP Booster facility, the existing SIP is required to be cancelled and a fresh SIP investment with SIP Booster Facility is required to be submitted.
- SIP Booster Facility will be available for all open-ended schemes of Kotak Mahindra Mutual Fund where SIP facility is being currently offered.
- Investors opting for this facility, need to duly fill-in the SIP Booster Facility section of SIP Form along-with the other requisite SIP related information.
- For complete details regarding the SIP with SIP Booster facility please refer to SIP Auto Debit Form with SIP booster facility.
- All other terms & conditions applicable for regular SIP will also be applicable to SIP Booster SIP

Illustration explaining the SIP Booster facility:

- SIP period: 01-Jan-2012 to 01-Dec-2013 (2 years)
- Monthly SIP Amount: Rs 2000
- Top-up Amount Rs 1000
- Top-up frequency: Half-yearly

Installment Period	From Date	To Date	Monthly SIP Amount	SIP Booster Amount	Final monthly SIP amount
1 to 6	01-Jan-12	01-Jun-12	2000	Not Applicable	2000
7 to 12	01-Jul-12	01-Dec-12	2000	1000	3000
13 to 18	01-Jan-13	01-Jun-13	3000	1000	4000
19 to 24	01-Jul-13	01-Dec-13	4000	1000	5000

Note: In the above table, Monthly SIP Installment Amount increases by SIP Booster amount of Rs 1,000 at halfyearly intervals.

The Trustee/AMC reserves the right to change/modify the provisions mentioned facility at a later date.

Systematic Withdrawal Plan:

This facility enables the Unitholders to withdraw (subject to deduction of tax at source, if any) sums from their Unit accounts in the Scheme at periodic intervals through a one-time request. The withdrawals can be made either Monthly (on 1st, 7th, 14th, 21st or 25th of every month) or Quarterly (on 1st, 7th, 14th, 21st or 25th of the last month in a series of three consecutive months). In case of these days fall on non-business day the transaction will be effected on the next business day of the scheme. SWP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of SWP. In case the SWP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SWP registration request received for a period lesser than 7 days in the interest of unit holders.

Example: for Monthly SWP if the SWP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this SWP will be from 7th February onwards.

This facility is available in two options to the Unitholders:

Fixed Option: Under this option, the Unitholder can seek redemption of a fixed amount of not less than Rs. 1000 from his Unit account. In this option the withdrawals will commence from the Start Date (being one of the dates indicated above) mentioned by the Unitholder in the Application Form for the facility. The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. If the net asset value of the units outstanding on the withdrawal date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last SWP installment then the entire amount will be processed along the last SWP installment.

Appreciation Option: Under this option, the Unitholder can seek redemption of an amount equal to a periodic appreciation on the investment.

The Unitholder redeems only such number of Units, which when multiplied by the Applicable NAV is, in amount terms equal to the appreciation in his investment over the last month / quarter.

The investor would need to indicate in his systematic withdrawal request, the commencement / start date from which the appreciation in investment value should be computed. The withdrawal will commence after one month/quarter (as requested by the investor) from the commencement / start date mentioned by the Unitholder in the Application Form and can, at the investor's discretion be on 1st, 7th, 14th, 21st or 25th of the month / quarter.

The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. In case the investor purchases additional Units, the withdrawal amount would include the appreciation generated on such Units as well. In the absence of any appreciation, the redemption under this option will not be made.

For both fixed and appreciation option the provision of minimum redemption amount will not be applicable for redemption made under this facility.

Systematic Transfer Plan (STP)

This facility enables the Unitholders to switch an amount from their existing investments in a Scheme/Plan/Option to another Scheme/Plan/Option of the Fund, which is available for investment at that time, at periodic intervals through a one-time request. The switch can be made weekly, monthly or quarterly. Under this facility the switch by the Unitholders should be within the same account/ folio number. The withdrawals can be made either Weekly or Monthly or Quarterly (on any business day). In case of these days fall on non-business day the transaction will be effected on the next business day of the scheme. The amount so switched shall be reinvested in the other scheme / plan and accordingly, to be effective, the systematic transfer must comply with the redemption rules of transferor scheme and the issue rules of transferee scheme (e.g. exit / entry load etc)

STP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of STP. In case the STP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the STP registration request received for a period lesser than 7 days in the interest of unit holders.

Example: for Monthly STP if the STP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this STP will be from 7th February onwards.

This facility offers two options to the Unitholders:

Fixed Option: Under this option, the Unitholder can switch fixed amount of not less than Rs. 1000/- from his Unit account. In this option the switch will commence from the Start Date mentioned by the Unitholder in the application form for the facility. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be created at the Applicable NAV of such Scheme/Plan/Option on the respective dates. If the net asset value of the units outstanding on the transfer date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last STP installment, then the entire amount will be processed along the last

	<p>STP installment.</p> <p>Appreciation Option: Under this option, the Unitholder can seek switch of an amount equal to the periodic appreciation on the investment. Under this option the Unit holder switches only proportionate number of Units, which when multiplied by the applicable NAV is, in amount terms equal to the appreciation in the investment over the last month/quarter.</p> <p>For both Fixed and appreciation option the provision of minimum redemption and minimum investment amount will not be applicable for transfer / switch transactions made under this facility for both switch out and switch in schemes.</p> <p>The investor has to mention a "Start Date". The first switch will happen after one month/quarter from the start date. In case the investor purchases additional Units, the amount to be switched would be equal to the appreciation generated on such Units. In the absence of any appreciation as mentioned above, the switch under this option will not be made. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be allotted at the Applicable NAV of such Scheme/Plan/Option on the respective dates.</p> <p>Dividend Transfer Plan (DTP):</p> <p>Dividend Transfer Plan (DTP) is a facility whereby the unit holders under the Dividend Options (other than Daily Reinvestment Sub-option) of the open ended Schemes of KMMF can opt to transfer their dividends to any other Investment option (other than Daily Reinvestment Sub-option) under any other open ended schemes of KMMF. DTP facility will be available to unit holder(s) holding units in non-demat form under the Dividend Option of the Transferor Schemes.</p> <p>Under the DTP facility investors cannot transfer their dividends into certain category of transferee schemes viz, close ended Schemes, Exchange Traded Funds (ETFs), and Kotak Tax Saver Scheme.</p> <p>Under DTP, dividend as & when declared (as reduced by the amount of applicable statutory levy) in the transferor scheme (subject to minimum of Rs.500/-) will be automatically invested without any exit load into the transferee scheme, as opted by the Unit holder. Such transfer will be treated as fresh subscription in the transferee scheme and invested at the Applicable NAV of the Transferee Scheme. If the dividend amount in the Transferor Scheme is less than Rs.500/- the dividend will be automatically reinvested in the Transferor Scheme itself and hence will not be transferred. The provision for 'Minimum Application Amount' specified in the respective transferee scheme's SID will not be applicable under DTP.</p>

C. COMPUTATION OF NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The Fund shall value its investments according to the valuation norms, as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

NAV of Units under the Scheme will be calculated as shown below:

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current assets including Accrued Income} - \text{Current Liabilities and provisions including accrued expenses}}{\text{No. of Units outstanding under the Scheme/Option.}}$$

NAV for the Scheme and the repurchase prices of the Units will be calculated and announced at the close of each Business Day. The NAV shall be computed upto four decimals

Computation of NAV will be done after taking into account dividends declared, if any, and the distribution tax thereon, if applicable. The income earned and the profits realized in respect of the Units remain invested and are reflected in the NAV of the Units.

V. FEES AND EXPENSES

This section outlines the expenses that will be charged to the scheme.

A. New Fund Offer (NFO) expenses

This is an ongoing scheme on the date of updating this document.

B. Total Expense Ratio (TER)

Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub-clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

- Additional expenses upto 0.20% of daily net assets of the schemes, incurred towards different heads mentioned under Regulation 52 (2) and 52 (4).

Service Tax:

Service Tax on investment and advisory fees may be charged to the scheme in addition to the maximum limit of TER as prescribed in Regulation 52(6)(c). Service tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per Regulation 52.

The estimates are based on an amount of Rs. 100 crores for the Scheme and will change to the extent assets are lower or higher.

The aforesaid estimates are made in good faith by the Investment Manager and are subject to change inter se among the various heads of expenses and between the Plans. It may also be noted that the total expenses of the Plans will also be subject to change within the overall limits of expenses under Regulation 52. Actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Fund, however the expenses charged will not exceed the statutory limit prescribed by the Regulations. Any expenditure in excess of the limits specified in Regulation 52 shall be borne by the AMC. The

differential portion of expenses if any, post charging of actual expenses will be adjusted in the investment management fee charged by the investment manager. There will be no sub limit on management fee, and it shall be within the overall TER specified above.

For the actual current expenses being charged, the investor may refer to the website of the mutual fund.

Illustration of impact of expense ratio on scheme return:

Assumed 1 year Simple Average Return of the Scheme before expenses	15%
Assumed Average TER Expense of the scheme for the year (%)	2%
Average Return after charging the expense	13%

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme.

C. Load structure

Load is an amount which is paid by the investor to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of assetmanagement.kotak.com or may call at 1800-22-2626 or your distributor.

Entry Load: NIL

In terms of SEBI Circular No. SEBI/IMD/CIR No. 4/168230/09 dated June 30, 2009, no entry load will be charged on purchase / additional purchase / switch-in. The upfront commission, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

Exit Load:

- For exit within 1 year from date of allotment of units : 1%
- For exit after 1 year from the date of allotment of units: Nil

Any exit load charged (net off Service Tax, if any) shall be credited back to the Scheme.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. A public notice shall be given in respect of such changes in one English daily newspaper having nationwide circulation as well as in a newspaper published in the language of region where the Head Office of the Mutual Fund is situated. In case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to all KIM and SID already in stock till it is updated.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

The investor is requested to check the prevailing load structure of the scheme before investing.

For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.
